LINKED BY LOVE

As part of our virtual Love-A-Thon, we invite you to join us in creating Love Links for the world’s longest recycled paper-chain made with messages of love and hope.

This unified masterPEACE will not only set a new Guinness World Record, it will live on in hospitals, senior centers, schools, etc. to memorialize this extraordinary time and serve as a beautiful reminder that love and kindness connect us all.

How To Create Love Links

1. Gather Recycled/Reused Paper. The weight of the paper should be thin enough to easily mail/bend and thick enough to create a sturdy link in the paperchain.

Suggested materials: cereal/food boxes, craft paper scraps, brown paper shopping bags, large mailing envelopes.

2. Measure & Cut Links – Each strip must be between 11 inches – 18 inches long and 1.5 inches wide. You may make as many links as you’d like. There is no limit per person!

3. Decorate Links with Love & Hope – You can get as creative as you’d like as you share messages of LOVE and HOPE for the world, however we ask that you avoid gluing 3-dimensional objects that may create waste/litter when assembled. Use markers, paint, crayons, sharpies, pencils or pens.

4. Place Your Links In An Envelope – You may fold the links in half if needed to fit in your envelope. DO NOT turn your links into a chain – we will assemble the chain prior to the Guinness World Record attempt.

6. Mail/Deliver Your Links to Kids for Peace HQ – Put the finished links in an envelope addressed to Kids for Peace at 1302 Pine Ave, Carlsbad, CA 92008. Please include your return address on the envelope so we can track where all the links are coming from.

Thank You! Let’s Get #LinkedByLove!
